## Education

GURU GOBIND SINGH INDRAPRASTHA UNIVERSITY

Bachelor of Technology in Computer Science

New Delhi, India

8.7 CGPA | 2020-2024

## Relevant Coursework

- Data Structures
- Algorithms Analysis
- Operating system
- Systems Programming
- Computer Network
- Database Management
- Internet Technology
- Computer Architecture

## Experience

### Kalagrafix

Frontend developer

Oct 2024 – Current

Remote

- Built and maintained company website and Projects using HTML, CSS, JavaScript, and React, increasing user engagement by 25%.
- Designed and implemented fully responsive layout with React, ensuring seamless experience across 4+ device types.
- Enhanced website performance by 30% through React component optimization, reducing re-renders and page load times
- Diagnosed and resolved 20+ frontend issues, boosting reliability and reducing user-reported errors by 40%.

### Mentorkart

Software trainee

Aug 2024 – Sep 2024

Noida

- Maintained SaaS JOB PORTAL and LMS, increasing system stability by 20% and resolving 15+ critical bugs and UI issues.
- Developed sign-up flow, domain onboarding, and profile approval, achieving a 30% increase in user engagement on portal.
- Build/Improved dashboard UI for LMS from scratch.
- Integrated pagination and refactored LMS code, reducing load times by 40% and enhancing overall platform efficiency

## Projects

ELECTROMART ([live link](#)) / Next js, Node js, Tailwind, Mongo db

- Architected, designed, and implemented a full-stack e-commerce app with user authentication (JWT).
- Integrated an admin dashboard for inventory management, order tracking, and customer management.
- Optimized performance through lazy loading, reducing load time and enhancing user experience.

PROJECTNEST ([live link](#)) / Next js, Node js, Express js, Socket io, Firebase, Next ui

- Engineered "Project Nest" creating a comprehensive project management tool.
- Integrated JWT and Firebase for Google authentication.
- Facilitated team collaboration with features like chat, task assignment, and member management, improving team productivity.

QUICKY ([live link](#)) / React js, Node js, Express js, Socket.io

- Built a real-time anonymous chat app using React js and Node.js, with WebSocket and Socket.IO for instant messaging.
- Leveraged React for responsive design and Node.js for efficient real-time interactions.
- Optimized for mobile devices to provide an intuitive and responsive user interface.

## Technical Skills

Languages: C++, Javascript

Developer Tools: VS Code, Canva, Github

Technologies/Frameworks: React js, Next js, Node js, Express js, Mongo DB, Mysql, Socket

## Coding Achievements

- Achieved a 1600+ rating and solved 800+ question on [Leetcode](#).
- Earned a 3-star rating on [HackerRank](#).
- Open source contribution in Girl script summer of code 2023.
